Around-the-clock Odor Control and a breath of fresh air for the indoors

Eco^z
Deodorizer^{Ultra}

Eco^z Products

Designed specially for manual or automated deodorizing equipment where on-going odor control is a necessity, Eco^z Deodorizer^{Ultra} can be used daily in trash chutes, dumpsters, grease receptacles, garages, rest rooms, common areas and restaurants.

Scented deodorizers can wear off quickly, allowing odors to reappear, but the active ingredients in Eco^z Deodorizer^{Ultra} immediately break down odor causing molecules in the air and on nearby surfaces, providing unprecedented odor control 24/7.

- Formulated for misters, foggers & automatic spray equipment
- Animal and people friendly
- Non-volatile formula
- Industrial strength blend
- Economical ultra-concentrate

Usage recommendations

Directions

Fogger: Mix 4 – 8 ounces per gallon of water. Set fogger to spray at regular intervals. See your rep for a schedule based on odor intensity, room size and air flow through.

Manual Sprayer: Mix 4 – 8 ounces per gallon of water. Spray at regular intervals or as needed to remediate odor.

For Optimum Results

- Clean any odor emitting areas with products from the Eco^z line
- Treat more frequently or at a higher concentration for stale or heavy odor

Technical Specs

pH Range: 3.25–4.20

Fragrance: None added

Appearance: Translucent amber liquid

Keep out of reach of children.

Do not ingest this product.
