

Our water park defense

Eco^z Water Park Enzymes provide stable water chemistry

Eco^z Water Park Enzymes, formulated specifically for indoor/outdoor water parks, naturally cleanse water by removing solids and organic material.

Most water treatment chemicals treat only the symptom of the problem.

Eco^z Water Park Enzymes utilize specifically chosen safe surfactants to loosen oil and grease and a broad spectrum enzyme concentrate to digest body oils, lotions, urine, feces and other organics.

Eco^z Water Park Enzymes enhance the natural process allowing for safer removal of this organic material before it has a chance to cause problems with water clarity, excess slime and algae growth, scum lines and human health issues.

Eco^z Water Park Enzymes improve the success of other water park treatment chemicals and enable you to use less of them. It helps stabilize pH, reduces upsets and improves overall water quality.

- Super concentrated formula improves water quality
- Washes away algae, slime and scum
- Fewer water upsets
- Eliminates chemical odors

Eco² Water Park Enzymes

Treatment Guidelines

Application Rate

Maintenance: Add 10 – 20 ounces per 10,000 gallons of water park capacity weekly; include evaporation and dragout.

For heavier than normal bather loading, double weekly dose.

Open, close or upset: Add 20 – 40 ounces per 10,000 gallons of water park capacity

For Optimum Results

- Continue normal use of pool sanitizer; normal “shock” routines will not adversely affect this product
- Inject product continuously with a peristaltic pump or mix the dosage manually with a bucket of park water and spread evenly over surface.
- May be mixed directly with many other park products but it is NOT to be applied at the same time as sanitizers
- Apply when water temperature is 50°–110° F; pH is 6 – 8; alkalinity is less than 100 ppm
- Increased dosage may be required during heavy traffic periods

Technical Specs

In Use pH Range.....Neutral
 Solubility in WaterSoluble
 OdorMild
 AppearanceClear amber liquid

Packaging, Handling and Storage

Size	Pkg	Dimensions (LxWxH)	Weight
1-gal	4/cs	15" x 10" x 10"	39 lbs
5-gal	pail	12" x 10" x 15"	48 lbs
55-gal	drum	24" dia. x 36" H	475 lbs

Store this product out of direct sunlight in a cool dry area. For best results, use within 12 months. Request a Eco² Water Park Enzymes MSDS for more specific information.
